Chiminal Matters.—During the month of November, seventy-eight transcripts, in criminal cases, were furnished by the Po-lice Court to the Court of Common Pleas.

Accident at Wood's Theater.—Two men connected with the equestrian troupe, at Wood's Theater, fell from a rope on which they were performing, last night, and were severely injured.

FIRE YESTERDAY EVENING.—Yesterday evening, between five and six o'clock, a fire broke out in a two-story brick house on Beymiller-street, between Laurel and Hopkins, which partially consumed the structure. The house was not finished, and was unoccuried. It is believed that some boys unoccupied. It is believed that some boys had built a fire in the grate, and that by carelessness sparks had been communicated to the building. The total loss did not ex-ceed \$300, upon which there was no in-surance. surance.

INTRODUCTION OF GYMNASTIC EXERCISES IN THE PUBLIC SCHOOLS.—Considerable dis-ussion was, last night, elicited in the School Board, by the report of the Special Commit-tee on Gymnastic Exercises. A large ma-jority of the Board was decidedly in favor of a system of physical as well as mental train-ing in the schools, and with that view, the committee was directed to devise some plan committee was directed to devise some plan for the introduction of such gymnastic exer-cises as would be conducive to health and bodily vigor. In order to do this, they will probably report against any particular formality, but recommend only that which will be combined with anusement, as no good can result from mere mechanical exer-cise, independent of the will.

forty-one cases yesterday morning, of which the following are the most important: John Sand, and John O'Donnell, charged with malicious assault, were committed to jail in default of \$500 bail each, for their ap-pearance for examination on Wednesday.

John Shuitz pleaded guilty to a charge of petit larceny, and was sentenced to four months' imprisonment in the County jail. Wm. Stricker, in whose possession several pieces of counterfeit coin were found, was held over in the sum of \$2,000, for his appearance at the next term of the Court of Common Pleas, and was committed to jail in default. The other cases were chiefly of a trifling

COUNTY MATTERS,-The County Commis county Anteres.—The County Commissioners, at their regular session yesterday, passed the following orders: To E. E. Hutchinson, Attorney, for defeuding Martin Davy, charged with murder in the first degree, \$30; to L. L. Armstrong, medicines for County Jail, \$83 90; to Cincinnati Gas-light and Coke Commany for gas for Count-bases and Coke Company, for gas for Court-house for two months, \$147 84; to C. D. Crookshank, Treasurer, pay-roll of hands for work on new jail, \$139 09; to John Knauber, on account of bridge at Swift's Mill, \$150; to

undry bills, \$10 12; total, \$569 95.

The Commissioners then commenced their quarterly road session, which will continue A petition from John S. Taylor, asking the vacation of a road in Spencer Township, was received and laid over till to-day.

The Commissioners then proceeded to make their quarterly examination of the funds in the County Treasury, and found that there were now \$65,575 73 in the treasury,

and that during the last week \$84,000 were paid to the city. THE PERILS OF ADVERTISING .- The Writer of this paragraph, desiring to try one of the excellent coal-burning cooking-stoves which are advertised in this paper, wished to dispose of one which burned wood. Accordingly, he advertised it in the Press, as every body is frequently advised to, who has any kind of a want, and the same day it brought a purchaser. He supposed that this closed the matter, but was allttle surprised to find, several days after, the same advertisement the matter, but was allttle surprised to find, several days after, the same advertisement appropriated by the Sunday Courier. Doubtless, this is an uncommonly interesting item for that paper, but is it fair for it to send its readers on a long pilgrimage after a second-hand wood-burning cooking-stove, which has already been disposed of?

Furthermore, is it a neighborly act for the Courier to keep a throng of its readers making a quiet gentleman's residence hideous with their inquiries for "a second-hand wood-burning cooking-stove, price \$8.7"

wood-burning cooking-stove, price \$5.2"

Justice compels us to say that this is so far only an apprehension; but it is not pleasant even to apprehend a throng of the Courier's subscribers besieging one's door, clamoring for a second-hand wood-burning cooking-stove, price \$8. stove, price \$8.

MEETING OF THE BOARD OF DIRECTORS OF THE NEWSBOYS' HOME.—A meeting of the Board of Directors of the Newsboys' Home was held at the rooms of the Young Men's Christian Union, yesterday afternoon, Dr. Judkins in the Chair. A communication was received from Chas.

H. Wolff, resigning his position as one of the Vice-Presidents of the association. He states that the objects proposed have his warmest sympathies, and his declination is only prompted by his inability to devote the necessary time to the labor which the station would associate would require.
On motion of Mr. McLean, the President,

Secretary and Treasurer were authorized to draft by laws and select a suitable room for the entertainment of the boys.

The election of an Executive Committee was postponed till the next meeting, which will take place on Friday afternoon, at four cyclock.

o'clock.

The attendance yesterday was small, much smaller than it should have been, and in order to have a full turnout the next time, those present agreed to visit the delinquent

The Society, in order to effect any thing, must have funds, of which but a small amount is now on hand. In order to give the liberal an opportunity to donate Mr. Barton was authorized to solicit subscriptions, and others will probably be appointed at the next meeting. at the next meeting.

CULTIVATION OF PRARS-Important to Amateurs.—Some months since, several gen-Amateurs.—Some months since, several gentlemen were designated by the Cincinnati Horticultural Society, to prepare each a separate list of the best pears, two kinds for each month, for amateur cultivation. At the last meeting, the following was submitted by Dr. J. A. Warder:

Pears for amateur cultivation in succession, two for each month, with an occasional alternate—named in the order of preferred excellence:

For June - Early Catherine, and Madeleine,

or the Doyenne d'Ete.
For July—Early Butter (of Mears), Bloodgood.

For August—Julienne, Kirtland, or Tyson.
For September—Seckel, Belle Lucrative,
or Flemish Beauty.

For October—White Doyeume, Des Nonnes, or the Winter Nelts.

For November—Dix, Bearre Diel, or Passe

Colmar. For December—Glout Morceau, Jaminette For January-Niles (?), Lawrence, or For February—Lawrence, Easter Beurre. For March—Easter Beurre, Winter Orange, (local name.)

AMUSEMENTS.

Pike's Opena-nouse.—A very fine audience (for so disagreeable a night) was present at the Opera-house last evening, to greet Mrs. and Mr. Waller on the first night of their appearance in this city for a number of months. Webster's tragedy of The Duchess of Mals, a play abounding in horrors, and which, from that fact, we should suppose popular, was extremely well cast. Mr. and Mrs. W. and Mr. Chaplin in the leading parts, were frequently and deservedly applauded. The bill to-night will be Othello, the Moor of Venica, with a cast embracing the strength of the company. A pas dedext by the Gale Sisters and the farce of Nipped in the Bud will conclude the entertainment, which certainly deserves to draw a crowded house.

NATIONAL THEATER.—The Marble Heart, a most affecting drams, of the French school, will be presented to-night, for the second time, with Miss Annette Ince in the leading role. Miss luce has acquired much celebrity from her masterly representation of the character, and deservedly; and our amusement-going readers could not spend an hour or two more pleasantly than at the National. Poor Pillicoddy, a farce every one has laughed at, and can laugh at again with renewed pleasure, closes the peragain with renewed pleasure, closes the per-

formance.

The Adalina Patti Concerts—Pesiponement Last Evening.—Men propose, but prima donne dispose, and last evening la petite Adalina was indisposed, and her concert, to the disappointment of many, did not take place. Mr. Maurice Strakosch desires us to say that the only concert of Adalina Patti will occur this evening at Smith & Nixon's, and that those holding tickets for last night can obtain admission this evening, or, if they choose, have their money refunded. Other engagements previously made will prevent any other concert than that of this evening.

School Board—Proceedings Last Night,— The Board met at the usual bour last night, President King in the Chair. The minutes of the previous meeting were read and ap-

On motion, the contract with Moore & Jackson, for the painting of the new school-house on Third-strees, was rescinded, with their consent, and James McCoy authorized to do the work for the sum of \$475.

The number of volumes circulated during the last month amounted to 8,246 volumes, as follows:

History
Biography
Poetry
Scientific
Voyages and Travela.
Novels and Talea.
Miscellaneous.

The number of readers for each year since the organization of the Library, is as follows: First year, 2,888; second year, 4,652; third year, 5,831; fourth year, 8,057. The Committee, to whom was referred the examination of the gymnastic exercises in the Fifth District, submitted the following

report:
"Your Committee witnessed the exercises
of some 200 pupils, under the direction of Professor Greusen, and were much pleased with the kind of exercises, and particularly with the great eagerness with which the children entered into them. The entire muscular system was actively exercised in their various attitudes, and the result must be, if systematically carried out, to make our children better in form and more muscuour children better in form and more muscular in action—two results thighly desirable.

"The Principal of this school permits a
portion of the pupils, during what is technically called study-bills, if the lessons are
properly prepared for the next recitation, to
spend a part of their time in gymnastic exercises. The pupils return to their studies
with renewed energies of body and mind,
and, as your Committee believe, will accomplish their work better than if such exercise had not been taken.

ise had not been taken.
"Besides, it acts as a stimulant to the faithful preparation of lessons, for none are per-mitted to join in these exercises during study hours, unless thus prepared. The use of expensive apparatus is not, in our judg-ment, either desirable or necessary. By the use of swings, upright poles, ladders, &c., pupils may be seriously injured. In free gymnastics no one is endangered, either in

ife or limb, and all the most desirable results attained. "Your Committee are decidedly of the opinion that the gymnastic exercises, as practiced in the First District Schools, so far from retarding the pupils in their studies, are a great benefit. As to their influence on physical health, no sane mind can have a

"Your Committee are so well convinced of the utility of well-conducted gymnastic exercises, that they would urge your honorable body, at as early a period as practicable, to employ a professor of gymnastics, and thus incorporate physical education a part and parcel of the common school system.

"L. HARDING,
"LOUIS BALLAUF,
"CHARLES BONSALL."

On motion, the subject was referred back to the committee with instructions to intro-duce a plan of physical education, in accordance with the recommendation.

The Board refused to accept the resignation of Rufus K. Payne, of the Fourth Ward.

The Board then proceeded to ballot for a Trustee from the Tenth Ward in place of

Mr. Tafel, having received eighteen votes, was declared elected. Mr. Woodward moved to reconsider the vote by which the invitation to meet in the Council Chamber was rejected. Carried.

A long debate ensued, when the resolution in favor of the removal was adopted. Adjourned.

REMEDY FOR FELOSS.—We have received the following remedy for felons, from a sub-scriber, to which we wish to call particular attention: "Whenever it is believed that a felon is "Whenever it is believed that a felon is about to make its appearance, take a piece of tape and commence winding it around the end of the finger, continuing it is a spiral form until you pass above the point where the pain is first discovered; this should not be so tight as to produce pain, but of a gentle pressure, sufficient to stop the free circulation of the blood, thus depriving the felon of that which is necessary to its growth; continue the same from twelve to twenty-four hours, occasionally hathing with spirite turpentine, if convenient, and the cure will be complete without any painful application."

ALLEGED ORSTUCTIONS BY RAILROADS.—In the case of Henry Schultz against the Little Miami Railroad Company, in which the plaintiff claimed to recover damages from injuries claimed to have been occasioned to his property on East Front-street, by reason of the alleged unreasonable use of the street by the Railroad Company, Judge Storer charged the jury at considerable length. In closing, the Court remarked that defendants were not responsible to the plaintiff for injuries arising from the natural decay of the building, failure in its foundation, or deterioration by the construction merely of the railroad; but only for those improper acts in the management of their engines and trains, the management of their engines and trains, which have directly produced the injury complained of. The jury then retired to deliberate on their verdict.

The McMicken Joke. To the Editors of the Daily Press: "The laborer is worthy of his hire," and when, through excess of modesty or an over-scrupulous sense of honesty, he declines taking it himself, common justice requires that those for whom he labors should give it

In view of this fact, I would suggest that a public meeting be called, and a formal pre-sentation of the "balance" of the McMicken personal fund be made to the executors for the very faithful and deinterested manner in which they have administered on the estate,

Squire Howard, before whom the case was tried, dismissed it at the cost of Mr. Miller, which amounted to something Mr. Miller, which amounted to something near \$10.

NEWPORT NEWS.

Rowdysm.—This city has long been in-fested with a set of young rowdius, varying in age, from fifteen to twenty-live years. They are the terror of beer saloons and small whisky-shops, in which places, when they are not on the street corners, they pass away their time. A night or two stace, after going their rounds and imbibling to a very considerable extent, they pulled up at Thies's Exchange, on the corner of Jefferson and York-streets, and being in a condition not to Exchange, on the corner of Jefferson and York-streets, and being in a condition not to care for expenses, they made an attack on the windows and demolished numerous panes of glass, and applied saveral hard epithets to the proprietor and his wife. The weather was disagreeable and lowering, a slight snow falling during the greater part of the day, but it melted nearly as fast as it touched the earth, and the tendency, last evening was to rain. The weather was moderate, being one or two degrees above freezing point throughout the day.

The landing yesterday looked more active than for several days previous, but still business was quiet for the season. A good deal of freight was deposited on the Wharf, which continued lined with stemmers. The offerings of stuff for the various ports were still moderate, at our last quotations.

Saturday evening s.St. Lows papers remark:

We have to report the river here to-day as falling a very little. During the night it receded between one end two inches. The weather is somewhat colder in day, but it is freezing none, and the river is perfectly free of ice. Navigation, as far up the stream as Keckuk, is comparatively unimpeded now so far as ice is concerned, but is rendered quite difficult on account of the lowness of the water. None of the beats now plying attempt making regular time. We have nothing further in regard to the Illinois, except what may be found under the telegraphic head. The lower river, to Cairo, is in a bad condition and difficult to navigate—boatman continue to report five fest only on the bars.

Mr. John H. Bowen, yesterday, received a telegraphic dispatch from Captain R. Ford, dated St. Joseph, November 30, staining that the Missouri Biver was down to less than thirty inches, and that no boat could run. The weather had turned very cild at St. Joseph yesterday morning, when the dispatch was sent.

The Romance and Glory of the Ilalian Warwick's Career. The New York World thus speaks of Garibaldi, the Italian King-Maker:

A man who, a few years ago, was making candles on Staten Island—who, a few mouths ago, was a retired soldier, much beloved beloved and admired, but with no position or loved and c. B. Cochrane, of New York; loved and admired, but with no position or command—by his daring, his address, and his military skill, has reacued a kingdom and a dependent island from a tyrannic dynasty; has been made absolute dictator in the realm which he enfranchised, and then summoning a sovereign who has not furnished him a gun, a man, or a scudo, rides with him side by side into the capital of the liberated country, transfers to him the supreme power, and, finally, not lingering round the monarch in whose hands he has placed the scepter of half Italy, goes heme to rest as quietly as if he were turning his back upon a day's labor.

There is a simple grandeur about the man ner in which this man Garibaldi has absolved himself of the high and perilous office which all unbidden, he assumed, that lifts him fa up among those who sit cuthroned in the world's memory. Such absolute self-abne-tion when he was dictating the fortunes of tion when he was dictating the fortunes of his country, such absolute self-negotiation when those fortunes were achieved by the force of his will, and the strength of his right arm, mankind can think of only with wonder and admiration. But yesterday, he was absolute, at the peril of his life, his fortune, and his fame; to-day he gives his power, not back again to those who, in sheer necessity, bestowed it on him—that were comparatively easy—but into the hands of another man, with the sole purpose of serving their common country. ing their common country.

THE AMERICAN LUMBER TRADE,-It is sin gular how little fluctuation ever takes place in our lumber market. Wood brings but in our lumber market. Wood orings out little more per cord now than it did twenty years ago, and yet the quantity annually consumed is immense. When we take into consideration that the oak timber required for one single ocean steamer will strip as bare as the Greek slave fifty acres of the best woodland in the country same dies way he bare as the Greek slave fifty acres of the best woodland in the country, some idea may be formed of the quantity of land run over by the ax of the ship-carpenter alone. To supply the ship-yards of New York requires the stripping of 5,000 acres of timber-land annually. Yet this immense supply can be continued without any sensible addition to the price or any apparent diminution of our forest lands. The present supply of ship timber is principally from the States of Florida, New Jersey, Pennsylvania, and New York—the oak of these States being preferable to that growing farther North, because the latter is porona. But our great timber-yard is Oregon—a country that can supply the demand of all the navies in the world and not feel it.
